RE: Former LaSalle County Farm Supply Co.
Facility No. 1-017611
Location: SW corner of Alice & Jackson, Wedron (LaSalle County), IL

Dear Mr. Stahler:

You are hereby notified that Grainco FS, Inc. is required to undertake a site assessment at property owned by Grainco FS, Inc. at the corner of Alice and Jackson in Wedron, Illinois. As shown by the attached documentation, a 500-gallon underground storage tank (UST) used for storing gasoline was removed in May of 1990. A review of our records reflects that no site assessment was done at removal as required by law. The OSFM is providing this notice pursuant to 41 Illinois Administrative Code 176.360(b), which provides that the owner or operator of a previously removed UST shall assess the excavation zone involved in the removal when notified to do so by the Office of the State Fire Marshal.

The OSFM regulations in place at the time of removal provided the following:

Section 170.640 Assessing the Site at Removal or Change-in-Service of UST Systems

(a) Before removal or a change-in-service is completed, owners and operators must measure for the presence of a release where contamination is most likely to be present at the UST site. In selecting sample types, sample locations and measurement methods, owners and operators must consider the method of removal, the nature of the stored substance, the type of backfill, the depth to ground-water and other factors appropriate for identifying the presence of a release. The requirements of Section 170.640 are satisfied if one of the external release detection methods allowed in Section 170.530(e) and (f) [vapor monitoring or groundwater monitoring] is operating in accordance with the requirements in Section 170.530 at the time of removal, and indicates no release has occurred.

(b) If contaminated soils, contaminated ground-water, or free product as liquid or vapor is discovered under subsection (a), or by any other manner, owners and operators must begin corrective action in accordance with 40 CFR 280, Subpart F, incorporated by reference in Section 170.410.

41 Ill. Adm. Code 170.640 (effective April 21, 1989). We have included copies of the UST registration and removal records for your reference.

Please do not hesitate to contact me if you have any questions or concerns about this notice. I can be reached by phone at 217-557-3131 or by email at Fred.Schneller@Illinois.gov. Thank you very much.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Fred M. Schneller".

GENERAL INFORMATION

Notification is required by Federal law for all underground tanks that have been used to store regulated substances since January 1, 1974, that are in the ground as of May 8, 1986, or that are brought into use after May 8, 1986. The information requested is required by Section 9002 of the Resource Conservation and Recovery Act, (RCRA), as amended.

The primary purpose of this notification program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

Who Must Notify? Section 9002 of RCRA, as amended, requires that, unless exempted, owners of underground tanks that store regulated substances must notify designated State or local agencies of the existence of their tanks. Owner means—

(a) in the case of an underground storage tank in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank used for the storage, use, or dispensing of regulated substances, and

(b) in the case of any underground storage tank in use before November 8, 1984, but no longer in use on that date, any person who owned such tank immediately before the discontinuation of its use.

What Tanks Are Included? Underground storage tank is defined as any one or combination of tanks that (1) is used to contain an accumulation of "regulated substances," and (2) whose volume (including connected underground piping) is 10% or more beneath the ground. Some examples are underground tanks storing: 1. gasoline, used oil, or diesel fuel, and 2. industrial solvents, pesticides, herbicides or fumigants.

What Tanks Are Excluded? Tanks removed from the ground are not subject to notification. Other tanks excluded from notification are:

1. farm or residential tanks of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes;
2. tanks used for storing heating oil for consumptive use on the premises where stored;
3. septic tanks;

4. pipeline facilities (including gathering lines) regulated under the Natural Gas Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under State laws;

5. surface impoundments, pits, ponds, or lagoons;

6. storm water or waste water collection systems;

7. flow-through process tanks;

8. liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;

9. storage tanks situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

What Substances Are Covered? The notification requirements apply to underground storage tanks that contain regulated substances. This includes any substance defined as hazardous in section 101 (14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception of those substances regulated as hazardous waste under Subtitle C of RCRA. It also includes petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

Where To Notify? Completed notification forms should be sent to the address given at the top of this page.

When To Notify? 1. Owners of underground storage tanks in use or that have been taken out of operation after January 1, 1974, but still in the ground, must notify by May 8, 1986. 2. Owners who bring underground storage tanks into use after May 8, 1986, must notify within 30 days of bringing the tanks into use.

Penalties: Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed \$10,000 for each tank for which notification is not given or for which false information is submitted.

INSTRUCTIONS

Please type or print in ink all items except "signature" in Section V. This form must be completed for each location containing underground storage tanks. If more than 5 tanks are owned at this location, photocopy the reverse side, and staple continuation sheets to this form.

PERMIT FOR REMOVAL OR ABANDONMENT IN PLACE OF PERMIT EXPIRES: 10/23/90
UNDERGROUND STORAGE TANKS FOR PETROLEUM AND HAZARDOUS MATERIALS

Permission to remove underground storage tank or tanks is hereby granted. Such removal shall not commence until 05/10/90. A seventy-two (72) hour - 3 working day notice is required to confirm final date of the removal for confirmation of our Inspector to be on site. This Office Phone Number is 217-785-5878 or 217-785-1020. THIS PERMIT IS VALID FOR 6 MONTHS FROM THE APPROVAL DATE.

You must notify ESDA 1-800-782-7860 within 24 hours of leaks or contaminated soil.

Removal must be in accordance with acceptable closure requirements and procedures, such as API Bulletin 1604. A site assessment must be conducted to determine if a release has occurred.

Notification is required by Federal law for all underground tanks that have been used to store regulated substances since January 1, 1974, that are in the ground as of May 8, 1986, or that are brought into use after May 8, 1986. The information requested is required by Section 9002 of the Resource Conservation and Recovery Act (RCRA), as amended.

The primary purpose of this notification program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

Who Must Notify? Section 9002 of RCRA, as amended, requires that, unless exempted, owners of underground tanks that store regulated substances must notify designated State or local agencies of the existence of their tanks. Owner means—
(a) in the case of an underground storage tank in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank used for the storage, use, or dispensing of regulated substances, and
(v) in the case of any underground storage tank in use before November 8, 1984, but no longer in use on that date, any person who owned such tank immediately before the discontinuation of its use.

What Tanks Are Included? Underground storage tank is defined as any one or combination of tanks that (1) is used to contain an accumulation of "regulated substances," and (2) whose volume (including connected underground piping) is 10% or more beneath the ground. Some examples are underground tanks storing: 1. gasoline, used oil, or diesel fuel, and 2. industrial solvents, pesticides, herbicides or fumigants.

What Tanks Are Excluded? Tanks removed from the ground are not subject to notification. Other tanks excluded from notification are:
1. farm or residential tanks of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes;
2. tanks used for storing heating oil for consumptive use on the premises where stored;
3. septic tanks;

4. pipeline facilities (including gathering lines) regulated under the Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, which is an intrastate pipeline facility regulated under State law;
5. surface impoundments, pits, ponds, or lagoons;
6. storm water or waste water collection systems;
7. flow-through process tanks;
8. liquid traps or associated gathering lines directly related to oil or gas production or gathering operations;
9. storage tanks situated in an underground area (such as a basement, cellar, mine-working, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

What Substances Are Covered? The notification requirements apply to underground storage tanks that contain regulated substances. This includes any substance defined as hazardous in section 101 (14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception those substances regulated as hazardous waste under Subtitle C of RCRA. It includes petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

Where To Notify? Completed notification forms should be sent to the address given at the top of this page.

When To Notify? 1. Owners of underground storage tanks in use or that have been taken out of operation after January 1, 1974, but still in the ground, must notify May 8, 1986. 2. Owners who bring underground storage tanks into use after May 1986, must notify within 30 days of bringing the tanks into use.

Penalties: Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed \$10,000 for each tank for which notification is not given or for which false information is submitted.

INSTRUCTIONS

Please type or print in ink all items except "signature" in Section V. This form must be completed for each location containing underground storage tanks. If more than 5 tanks are owned at this location, photocopy the reverse side, and staple continuation sheets to this form.

FOIA

Joyce,

per our conversation, I am requesting via FOIA the removal log and Leaking Tank Information for the following facilities:

1003057
1025867
1017611
1002029

If the files are thin or removal logs do not exist, then please provide any information as to the status of the vessels associated with these facilities.

Should you have any questions, please feel free to contact me at your convenience.

Thanks in advance for your assistance!
